

PrEP
YOURSELF

PREVENTION FOR YOUR LIFE

What is PrEP?

- PrEP is short for Pre-Exposure Prophylaxis
- PrEP is an HIV prevention strategy for people who are at very high risk for HIV infection
 - People using PrEP take an HIV medication every day to help prevent infection
- People using PrEP need to visit their doctor every 3 months
 - PrEP should always be used as part of your overall HIV prevention strategy such as condoms

Is PrEP right for me?

- Is your primary sex partner HIV-positive?
- Do you use condoms sometimes, or not at all?
 - Have you had a sexually transmitted infection in the last 12 months?
 - Do you have multiple sexual partners?
- Are you a man who has sex with other men (MSM)?

If you answered 'Yes' to any of these questions, contact ARCW today to learn more about PrEP.

How can I get PrEP at ARCW?

- Take an HIV test – PrEP can only be used with people who are confirmed to not have HIV
 - Receive a health exam from an ARCW provider
- Receive a prescription from your provider and get it filled
 - Commit to ongoing health care for PrEP and other sexual health needs

ARCW can help you access PrEP even if you have no insurance or have high co-pays.

Where can I get PrEP?

ARCW is offering PrEP at the following locations across Wisconsin:

- Madison – call 800.486.6276
- Milwaukee – call 800.359.9272
- Green Bay – call 800.675.9400
- Kenosha – call 800.924.6601
